EXPERIENCE

CSA Engineering: Full-Stack Developer

September 2024 – Present

- Built and maintained the complete frontend of a time-booking system using **React.js**, integrating **REST APIs**, secure session/login management, and implementing performance-focused techniques such as optimized data rendering, memoization, pagination, and efficient state updates. Added advanced filters, graphical insights, and facial recognition features for employee timesheet entries.
- Designed and integrated backend APIs for a payroll software system to streamline financial data retrieval, support advanced filtering, and generate Excel exports with optimized response times, significantly enhancing accounting workflows.
- Contributed to the frontend development of a CRM application, ensuring high performance through lazy loading and minimized re-renders. Delivered a user-friendly and intuitive interface, earning direct client appreciation for its usability and speed.
- Managed both frontend and backend of an extensive in-house ERP system with a **MySQL** database, improving overall system efficiency and usability by 30% through query optimization, caching strategies, efficient indexing, and reducing API payload sizes. Covered modules including employee resource management, sales, finance, project management, and payslip processing.
- Integrated Google Drive APIs to enable automated folder creation and secure file lifecycle management (upload, fetch, delete), improving document handling and streamlining application workflows.

Xzect Labs Pvt Ltd: Full-Stack Developer Intern

June 2024 – August 2024

- Leveraged modern frontend technologies like **Next.js**, **TypeScript**, **React.js**, **Bootstrap** and **Tailwind CSS** to create fully responsive, user-friendly interfaces for clients.
- Worked with complex **REST APIs** like Gemini API integration to create an **AI chatbot** to assist users with fashion queries.

Aptara, Inc: Content Writer

Feb 2020 – Jan 2021

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, Bootstrap, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, Django, Prisma ORM

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps/Tooling: Docker, Docker Compose, PM2, GitHub

PROJECTS | [VIEW PORTFOLIO](#)

InnerNote | [PROJECT LINK](#) | Tech: TypeScript, Node.js, PostgreSQL, Express.js, React, Material UI

July 2025 – Aug 2025

Engineered a monolithic full-stack journaling app featuring Face API biometric login, JWT auth, and password hashing for data security. Designed RESTful APIs with validation/error handling.

Ultimate Gadgeting: Gadget Resale App [PROJECT LINK](#) | Tech: Node.js, Express.js, MongoDB, React.js, Bootstrap

Feb 2025

A gadget resale website that allows users view, create and update posts. Integrated MongoDB database by creating REST APIs on express server for CRUD operations. Integrated Cloudinary for efficient file storage and retrieval.

EDUCATION

Ambedkar University Delhi

2021 - 2023

MA Environment and Development

(Strong analytical background; transitioned into full-stack development)

Coursework: Introductory modules in data analysis (R), basic statistics and mathematical concepts related to ecological economics.

Ramjas College, University of Delhi

2016 - 2019

BA (hons) English

LICENSES AND CERTIFICATIONS

The Complete JavaScript Course 2024, Udemy [VIEW](#)

March 2024 – August 2024

JavaScript (Intermediate) Certificate, HackerRank [VIEW](#)

July 2025

React.js Essential Training, LinkedIn [VIEW](#)

May 2024

SQL (Intermediate) Certificate, HackerRank [VIEW](#)
