SUMMARY

Full-Stack Developer with 1.5+ years of experience building business-critical systems like ERP and Payroll software. Proficient in optimizing application performance and database efficiency, with a dedicated focus on writing clean, scalable code and solving complex algorithmic challenges.

EXPERIENCE

CSA Engineering | Full-Stack Developer

Sept 2024 – Present

- ERP & Infrastructure:** Managed end-to-end development of an extensive in-house ERP (Sales, Finance, HR); boosted system efficiency by 30% via MySQL query optimization, strategic indexing, caching, and API payload reduction.
- Payroll & Backend:** Architected an end-to-end payroll module featuring complex data aggregation and automated mailing systems; engineered one-click generation of advanced analytical reports (PDF/Excel) with integrated graphical insights.
- Frontend Performance:** Built a React-based time-booking system and CRM; implemented performance-focused techniques (memoization, lazy loading, pagination) to minimize re-renders and ensure sub-second UI response times.
- Advanced Features:** Integrated Biometric/Facial Recognition for timesheets and automated document lifecycles via Google Drive API integration, improving data security and operational speed.

Xzect Labs | Full-Stack Developer Intern

June 2024 – Aug 2024

- AI Integration:** Developed responsive Next.js/TypeScript interfaces and integrated Gemini AI APIs to build an intelligent chatbot for automated user fashion queries.

Content Writing & Freelance Projects

Feb 2020 – April 2021

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, React Native, Material UI, Bootstrap, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, Django, Prisma ORM

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps/Tooling: Docker, Docker Compose, PM2, GitHub

PROJECTS | [VIEW PORTFOLIO](#)

MealMuse: Pick Today's Dish (In Progress) | GitHub: [Frontend](#) - [Backend](#)

Feb 2026 – Present

Tech: TypeScript, React Native, Django

Developed a food discovery app featuring REST APIs, JWT authentication with Django Rest Framework, and dynamic multi-filter search powered by advanced ORM queries for personalized meal recommendations.

InnerNote | [PROJECT LINK](#) | Tech: TypeScript, Node.js, PostgreSQL, Express.js, React, Material UI

July 2025 – Aug 2025

Engineered a monolithic full-stack journaling app featuring Face API biometric login, JWT auth, and password hashing for data security. Designed RESTful APIs with validation/error handling.

LICENSES AND CERTIFICATIONS

The Complete JavaScript Course 2024, Udemy [VIEW](#)

March 2024 – August 2024

JavaScript (Intermediate) Certificate, HackerRank [VIEW](#)

July 2025

React.js Essential Training, LinkedIn [VIEW](#)

May 2024

SQL (Intermediate) Certificate, HackerRank [VIEW](#)

Sept 2025

EDUCATION

Ambedkar University Delhi | MA Environment and Development

2021 - 2023

(Strong analytical background; transitioned into full-stack development)

Coursework: Introductory modules in data analysis (R), basic statistics and mathematical concepts related to ecological economics.

Ramjas College, University of Delhi | BA (hons) English

2016 - 2019
